### Our Services

Whatever your goals, the sooner you start to plan your finances, the sooner your dreams can become a reality. Our Financial Planning service can help safeguard and grow your savings & investments, plan for retirement, pay less tax and protect you and dependants in case the unexpected should happen.

We will listen to your requirements and ensure our recommendations are suitable and clearly explained. If you do not wish to receive advice from us, we can provide you with information of products and help you decide how to proceed.

### Freedom to choose

We are Independent Financial Advisers which means we are not restricted from the investment schemes we can recommend. We offer products from a range of insurers for Life Assurance, Critical Illness Cover, Family Income Benefit, Mortgage Protection and Permanent Health Insurance.

We only recommend products that have been fully researched and meet our high standards. Our advisers are fully qualified and undergo regular professional development to ensure you get the best advice.

### Paying for our services

You have the option to pay for our services by way of a fee or alternatively we may be paid commission on a product we arrange. We will tell you how much commission we receive. Other firms may charge different rates and you are able to shop around for the most competitive terms. We have detailed below the payment options we offer.

Where we charge a fee, this will be agreed with you in writing before we carry out any work and confirmed in a fee agreement. The amount we charge will depend on the amount and complexity of the work. Our typical charges for general financial planning are:

Principal £175 per hour  
Administration £60 per hour

For example, if a Financial Adviser spent 4 hours providing services the fee would be £700 (4 x £175).

Where we receive commission, we will tell you how much the commission will be before the transaction. Commission is paid from product charges to your investment or policy. The amount of commission will vary according to the type of product, the amount you invest, and (sometimes) how long you invest for or your age when you start the product.

The following table details our typical commission rates for the products with which we most commonly deal.

## Commission if you invest monthly

### Personal Pension Schemes

Not all types of personal pension scheme are included in the information above about commissions. Instead only the more common types are included, and structures such as SIPP's are not. Before we start advising you, we will inform you of how much we could be paid if we do recommend one of those products to you.

You can also ask us about commission we might receive on underlying investments we recommend you hold within a SIPP, if not contained in the above information.

### Regular Payments

Some products provide for regular payments to be made to us during the lifetime of the product. We will inform you of any such payments and how they are calculated at the same time as we explain our charges. We will have the right to receive these regular payments, on the terms disclosed to you, even though you may not request further services from us or decide to terminate this agreement. However, if you appoint another firm to advise you on your affairs you can request that the regular payments be transferred to that firm.

If you need any further information about our charges please ask.
